### PART NUMBERS

DVHL900

Earthtrack's waterproof IP67 LED headlamp is suited to many different types of job sites and work applications, providing you with safe, hands free lighting.

It gives you the level, type, and direction of light that you need with three modes to choose from - high, low, and strobe, as well as an angle adjustment of 90 degrees.

But when the work day is done and it's time to play, the DVHL900 keeps on working. It is great for hiking, cycling, jogging, camping, and many other outdoor activities.

And to help keep you safe, whether its at work or play, there is a red safety light in the back.

Comes complete with 2 rechargeable batteries and a built in charger.
