ALL-IN-ONE SOLAR POLE 30W, BREAK BACK OR TELESCOPIC

Your answer to security, safety, and general lighting issues that could traditionally be remedied only with hard wired lighting. With the All-in-One Solar Pole, there is no need to dig up your yard or run a noisy generator to power your lights.

- Capable of providing light for up to four nights on full charge (8 hours direct sunlight)
- Photo-cell automatic on/off and power management system
 - runs at 30% until motion activated; flashes to life with up to 3600 lumen ultra-bright, even lighting
- Available in choice of two design options, Break back (in photo) or Telescopic pole
- Easily maintained by one person using HD hydraulic pump or pole equipped winch

P/N AIOSP-3600

** For optimal charging, Earthtrack Solar Poles must be kept clean and clear of dirt and sun blocking elements. 6 - 8 week Delivery on booking orders.*
